

Speech Camps

For Preschoolers (ages 3-6)

Speech Therapy has never been as much fun as it will be this summer! Inspire Pediatric Therapy is offering Preschool Articulation and Language Camps for ages 3-6. We provide intensive language and articulation therapy in a fun camp setting. With the assistance of UT Dallas graduate students, under the supervision of licensed Speech-Language Pathologists, your child will receive more direct individual therapy.

ARTICULATION CAMP:

Through both large group and individual therapy, your child will increase their articulation and communication. Their individual articulation goals will be drilled every day to help them produce age appropriate sounds.

LANGUAGE CAMP:

Through both large group and individual therapy, your child will increase their receptive and expressive language through following directions, answering questions, and understanding basic concepts.
